2. [redacted] Colonel Gregan advised that the Chicago Tribune, on Sunday, published an article purported to be authored by Mr. Dulles. Apparently the article is a re-write paraphrase of the Director's Edison Institute speech of 19 April 1959. The Chicago Tribune advised that a group by the name of Singer assured them they had the necessary rights. OGC will check the law on this although it is doubtful if there is any action to be taken.

3. [redacted] advised that [redacted] wife informed him that [redacted] parents are writing again to Representative Dante B. Fascell and probably to Senator George Smathers.
